Setting Up File Server Access on a Macintosh Computer

To access this service from a Macintosh computer do the following:

1. In the Finder click Go -> Connect to Server

2. In the Connect to Server window type
   a. smb://nasn2ac.cc.emory.edu/oxfs/departments/<foldername> (the folder should be given to you)
   b. Click Connect

3. In the SMB/CIFS File System Authentication window
   a. In Workgroup or Domain type: Emoryunivad (if this option exists)
   b. In Name type: <network id> (ex. jdoe)
   c. In Password type: <password> (ex. 987pa55)
d. Click OK

4. The file server folder will open on the desktop

5. Contact OCIT with any questions or issues by opening an AskIT request (http://oxford.emory.edu/AskIT)
