Setup for Mac OS 10.7

Note the small print: Every computer is different. These instructions were designed for the standard Mac OS X install of Lion (OS 10.7).

1. Click the Airport icon and then select EmoryUnplugged from the drop down list.

2. When prompted, enter your Emory network ID and password. Click Join.

3. You will be prompted to verify the Certificate. Click Continue.

4. When prompted, enter the Name and Password for the computer that has Administrator privileges and click Update Settings.

5. You are now connected to EmoryUnplugged. You can verify connection to EmoryUnplugged by opening System Preferences and selecting the Network preference. Select AirPort and it should show that you have been authenticated.
