Make sure that the latest version is installed by clicking the Apple icon and selecting About this Mac. Update your computer if you have anything less than 10.5.4.

Click the Airport icon and then select EmoryUnplugged from the drop down list.

When prompted, enter your Emory network ID and password. Click OK.

You will be prompted to verify the Certificate. Check the box next to Always trust “WPA-RADIUS1.EU.EMORY.EDU”

When prompted, enter the Name and Password for the computer that has Administrator privileges.

You are now connected to EmoryUnplugged. You can verify connection to EmoryUnplugged by opening System Preferences and selecting the Network preference. Select AirPort and it should show that you have been authenticated.
