How do I use the VHS player?

**Step 1**
From the **Source Select** screen firmly press **VHS** or **VCR**.

**Step 2**
Locate the VHS player in the lectern or equipment rack. In most cases this will be a DVD/VHS combination unit.

**Step 3**
Load your VHS tape into the player.

**Step 4**
On the touch panel you will now see a screen that closely resembles a VCR remote. Use these controls to operate the VCR.
